Briefing planned on alternatives for Glades Restoration

There will be a briefing on alternative plans for the Everglades Restoration at noon, Thursday, April 2 at the John Boy Auditorium in Clewiston.

Andy Rackley with the Florida Sugar Cane League will be the guest speaker. Lunch will be provided.

Redistricting map approved

The Palm Beach County Commission approved a redistricting map March 24 which creates a majority African American District.

The map joins Riviera Beach and West Palm Beach to create a majority of African Americans living between I-95 and U.S. 1 south towards Delray Beach.

The map gives District 7 a 53.6 percent African American majority, while the Royal Palm Beach and Loxahatchee areas and the Glades area remain together in District 6.

The map was drawn up by the Florida State University Center for the Study of Population and reflects the expressed desires and ideas of many people from the Glades who spoke at the public input meetings on the proposed maps.

Sugar Cane Growers ends harvest - breaks three company records

The Sugar Cane Growers Cooperative of Florida broke three production records during the 1991-92 season which ended on March 25. The Cooperative harvested and ground the most sugarcane in a single season in its 30 year history; it produced the most sugar in a single crop this year; and also set a record for the most sugar ever produced in a single day.

The Cooperative harvested sugarcane grown on 67,850 acres of their members' land; grinding 2,746,129 tons of sugarcane which yielded 303,860 tons of sugar raw value. This compares to last year's record production of 2,668,745 tons of sugarcane which yielded 294,019 tons of sugar raw value. Additional, the Cooperative produced the second-highest yield of sugar

per ton of sugarcane in its history, even though 81 percent of its cane was harvested mechanically.

"The growers are to be commended for producing an excellent crop with the help of favorable climatic conditions," said Cooperative president George H. Wedgworth. "We're proud of the accomplishments in the mill and in the field in dealing with a higher percentage of cane mechanically harvested. These new records confirm the decision to move toward a greater dependency on mechanical harvest of muckland sugarcane."

The Sugar Cane Growers Cooperative is made up of 52 small to medium sized sugarcane farmers in the Everglades Agricultural Area.

Jobs will be lost in Everglades clean up

By Margaret Barletto

Both jobs and production farm land will be lost to Everglades restoration efforts. Glades area residents were promised Thursday. "These kinds of problems are not solved without some cost," U.S. Asst. Secretary of the Interior Michael Hayden said. "President Bush seeks a balance between a quality of life and a healthy economic environment."

"There will be some cost to agriculture because the culprit here is phosphorus enrichment and the source is in farm practices," he said. "It is no one's desire in the federal family to put agriculture out of business, but this will cost land and some jobs."

Mr. Hayden made the statements during a briefing on Florida's efforts to restore the wetland environments from the headwaters of the Kissimmee River all the way to the tip of the Everglades National Park. The briefing, conducted by Tom MacVicar of SFWMD, was followed by a press conference which quickly turned into a

question and answer session between Mr. Hayden and Glades area residents attending the meeting. More than 35 residents of Clewiston, Belle Glade and Okeechobee attended the meeting held at water management district headquarters in West Palm Beach.

Painting a picture of a "united federal family," Mr. Hayden said the Department of the Interior Bureau of Fish and Wildlife and Bureau of Park Services were two of the "clients" of the U.S. Department of Justice in the federal lawsuit charging the State of Florida with polluting the Everglades.

"We may not have been the exclusive client, but we were certainly a major player," Mr. Hayden said. The Asst. Secretary also promised that all requests for documents under the federal Freedom of Information (FOI) Act would be promptly processed and the documents released.

"In fact, the staff says all the

Women concerned about SWIM plan organize group

By Margaret Barletto

"A woman is like a tea bag. Put it in hot water and you don't know how strong it will get."

The note was scrawled across the back of a handout left behind on a table during the first formal meeting of the Ladies of the Everglades. The women's group is a loosely organized system of phone-buddies, who let each other know what is happening concerning the enactment of the Everglades SWIM Plan, and how that plan may affect the way of life here in the Glades.

A small number of the Ladies were among the more than 35 Glades area residents attending a Thursday press conference with U.S. Asst. Secretary of the Interior Michael Hayden. The Ladies asked questions of the Secretary concerning the cost of the Everglades restoration efforts and access to Everglades National Park

for scientists other than government employees.

"This project is going to cost more than \$400 million, with 80 percent to be paid by farmers," said Barbara Forrest, of Clewiston. "In addition 58 square miles of productive farmland will be lost."

"This land makes money, but it also puts food in our stores," she said. "Why is President Bush putting a rubber stamp on efforts to end farming in South Florida?"

The Ladies at the meeting also asked about government priorities in restoring wetlands over education for children.

"This is for your children and my children," said Mr. Hayden. "This will ensure a higher quality of life for all our children. I wish a

A total of 425 children participated in this year's event, according to Sam Williams, organizer.

"This was the best years ever as far as I'm concerned," said Williams. "We drew a lot of participation from the coast and most of the kids and their parents stayed for the whole event."

Mr. Williams said sponsorship for the children's day of fishing has grown every year with this being the best year ever for donations.

This is his fifth year chairing the event with his wife, Polly the event with his wife, Polly Williams says he never gets tired of doing it.

"Just to see the look on these kids face when they bring their fish to the weigh-in stand is worth it all," he said.

This year, Williams estimates they gave away over \$15,000 in prizes, including tackle packages to each child that

contained gifts totaling between \$12 and \$15 a bag.

In addition to the impressive trophies for the winners, there was a drawing for a bicycle, Black Gold Jubilee Casting donated by McCrory's, rods and reels given away, a guide trip on Lake Okeechobee and other prizes.

The grass isn't greener on the coast

I've had it! People talk about Belle Glade, how this, how that (doesn't suit them) so they move to the "coast" thinking all is better.

Well, why then do they continue to come back here to Work and expect their business to be supported by the loyal local residents.

They also continue to come back here for friends, 'cause there is no better place on earth to find better people. They come back here for recreation, the lake, golf, etc. When all is said and done they won't be happy anywhere 'cause home is where you make it.

Anyway, I say to the business people, go ahead and move from "Us"-those people who made you, but don't start complaining when (and we will) take our support else where...think about it. Think hard.

Sometimes, and most of the time, the grass is not always greener on the other side.

FP & L protests hidden taxes

Editor's note: Florida House Finance and Tax Committee Chairman Mike Abrams recently announced a package of tax proposals that some have characterized as "taxes that consumers are least likely to notice."

Florida Power & Light Company President Stephen E. Frank, in a letter to Rep. Abrams, has opposed one particular element of that tax package...the application of state sales taxes to utility boiler fuels -- on the grounds that this "hidden" tax unfairly burdens electric utility customers who already pay taxes of approximately 20 percent in their monthly electric bills. We have reprinted this letter to Rep. Abrams with the permission of FP & L.

Dear Rep. Abrams:

Your recently announced proposal to apply the state sales tax to the fuels used to produce electricity represents an unfair attempt to use utility bills as a convenient vehicle for hiding taxes that would be politically unpopular if imposed in another form. As a responsible corporate citizen of this state, we have an obligation to our 3.2 million customers to strongly oppose this proposal on their behalf.

Florida Power & Light Company customers already

pay approximately 20 percent of their monthly bill for taxes of one form or another. This is nearly twice the amount paid by electricity users in other states. FPL collected nearly \$1 billion in taxes last year to comply with applicable state, local and federal laws. Your boiler fuels sales tax would add an additional \$52 million to that burden.

Applying the sales tax to boiler fuels would have a compounding effect on residential customers who not only would see an increase in their own electric bills, but would face higher prices for consumer goods and services provided by Florida companies, since increases in commercial and industrial electric bills would without doubt be passed on to the consumer in the form of higher product prices.

Electric service for many Florida residents is not a luxury, but an essential part of their daily lives. Our senior citizens living on fixed incomes would suffer from your proposal, as would low income residents and the unemployed who would have to pay higher prices for an essential service to cook their food, heat their water and light their homes. Our school districts, which ironically your tax proposals are intended to help, would also suffer from higher operating expenses -- more than \$650,000 yearly for the Dade and Broward County

school districts alone. And during this recessionary period, businesses both small and large would suffer from increased operating costs at a time when their sales have substantially deteriorated.

Of concern to us also is the double taxation aspect of your proposal as it relates to the raw material -- fuel -- used to produce electricity. This brings into question the standing practice of Florida tax law of not taxing raw materials used in the manufacturing process. As previously, stated, our finished product -- electricity -- is one of the most taxed of all commodities.

At Florida Power & Light Company, we believe our customers have a right to know how taxes impact the price they pay for electric service -- and we intend to tell them. I urge you to reconsider your boiler fuels tax proposal and remove it from consideration by your committee.

Sincerely,
Stephen E. Frank
President

Permitásenos ofrecer algunos antecedentes relacionados con el.

Nació en Santiago de Cuba y en dos ocasiones tuvo que escapar de la Isla; la primera por combatir a Batista y la segunda cuando estudiaba Derecho (1960) y se enfrentó a Castro durante una visita de este a la Universidad.

Participo en la Operación de Bahía de Cochinos como miembro de una brigada que no llegó a desembarcar.

Reintegrado a la vida civil, sus éxitos financieros lo situaron en la lista, muy honrosa, de cubanos que con su esfuerzo, han alcanzado en este País la escala de millonarios.

Presidente de la Junta Directiva de la Fundación Nacional Cubano Americana, Mas Canosa ha logrado hacer sentir su liderazgo en Washington y en la rama ejecutiva de otros Países de América latina y Europa.

Allí este Radio Mrti, en cuya creación la influencia de la Fundación fue determinante. A partir del 20 de Mayo de 1985, luego de su salida al aire, la audiencia cubana a las emisiones de radio provenientes del exterior se incrementó, haciendo llegar al pueblo la verdad, que por todos los medios la Tiranía trata de ocultarle. Allí esta transmitiendo, transmutando para Cuba, La Voz De La Fundación.

Uno de sus triunfos mas hermosos lo ha sido el programa Exodo, que, funcionando como toda una Agencia de Inmigración, ha traído a miles

Jamaica, Haití, and Barbados. AIDS. Multi-millionaire absentee land barons. Everglades threat. Third world poverty.

There is a common thread tying this sad package together - Belle Glade, Florida. My home town. This is how the majority of (Miami) Herald readers and TV news watchers in the 1980's and 90s have seen this small town that sits on some of the world's most beautiful, rich black soil.

Ironically, it WAS also the small town offering the kind of lifestyle most South Floridians are looking for: a place where English was always spoken, even though there was a large Cuban population all year long and the Jamaicans would come into town during the harvest. Where people worked, received an education, medical care and died all within 25 miles and 10 minutes of one another.

Belle Glade? No way. Oh, yes. Without a doubt, I lived it.

Had the movers and shakers in the Federal government not taken 78 years to visit Belle Glade this wonderful gift would still be "The Winter Vegetable Capital of the World." Examples of county government neglect are abundant. One extremely painful case is that. Palm Beach County still has not four-laned its part of State Road 27, or as it is known to those of us who have travelled it for 31 years - Killer 27.

As a conservative Republican, who has had a limited involvement in social and environmental issues, I do, and have regrets. In Belle Glade we lived off the land, and the land can't give any more. Belle Glade IS paying the price of neglect and abandonment. I hope South Floridians won't have the same regrets.

Sincerely,
Teresta Maria Gomez

de cubanos desde terceros países, proporcionándoles recursos.

Cientos de cubanos, de tránsito en distintos países, alentados por la Fundación, fueron ayudados a desertar de la Tiranía.

Otro éxito lo ha sido la ofensiva propagandística, política y diplomática, librada junto a los Estados Unidos para condenar por la violación de los derechos humanos, a la Tiranía de Castro. Mas Canosa hizo acto de presencia en Washington, América Latina y Rusia, en donde se reunió con Yeltsin. La campaña hubo de dar sus frutos cuando Rusia, al igual que varios países Latino Americanos y del desaparecido bloque del Este, batieron en contra del antiguo aliado, cuyos crímenes habían apañado siempre.

El respaldo ofrecido al embargo comercial de Gobierno de los Estados Unidos en contra de la Cuba-de-Castro, sera recogido por la Historia, tal vez muy pronto, como la mayor contribución de la Fundación Cubano Americana a la libertad de Cuba.

ENVIO. Con ese historial merece usted Jorge Mas Canosa, el respeto y el respaldo del Exilio. Cuba lo necesita; siga usted peliando, a lo macho. Cuídeselo. Señalamos llamando por su nombre: estupidos o farsantes. Si lo son, no se ha perdido nada. Si lo parecen, estan fuera de lugar; que se vayan a sus casas o sus Iglesias.

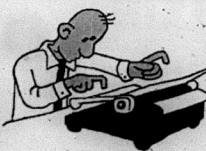

Por ultimo, no olvide que en su día, ya le pasaremos a usted la cuenta de esos eres - que no vaya rectificando - a lo largo del camino.

World On Ice coming to Palm Beach Auditorium April 14 - 19

Ever the innovator in live family entertainment, producer Kenneth Feld presents a bold format for the all-new Walt Disney's World On Ice -- a Disney double feature -- two complete features delivering twice the entertainment.

Starring favorite Disney pals and introducing brand new characters, this is a two-hour action-packed ice skating extravaganza for the entire family.

Walt Disney's World On Ice will be at the West Palm Beach Auditorium from April 14 through April 19.

The Disney celebrity lineup includes Mickey Mouse, Minnie Mouse, Donald Duck, Daisy Duck, Goofy, Chip 'N' Dale, Roger Rabbit and many, many more favorites. Meet Darkwing Duck, the newest hero and star of Disney television. Share in the excitement as the master mallard of mayhem and mystery battles the forces of

evil -- for the first time ever -- in the Walt Disney's World On Ice.

Feature one's story begins on a tropical island with those cool cats Baloo and Louie from Jungle Book and Tale Spin having a hot time. Unfortunately, the holiday goes awry as the plot thickens. Adventuress Carolina James is searching for her friend, Andy-Disney pals -- Mickey, Minnie, Donald and Goofy -- are ambushed by that dastardly pirate, Don Karnage, and shrunk down to doll-size. Will Mickey and Minnie always be mini mice???

Feature two stars Roger Rabbit and his amazing video machine, where movies come to life on ice with trouble brewing in the wild, wacky west. Can the Lone Chipmunks, Chip 'N' Dale save the day???

Fast forward another video vignette. Cold-blooded villain,

Ice Head Harry, has dazzled Daisy Duck in his clutches. Will Disney's newest television hero, Darkwing Duck, rescue the damsel in distress before she's blown to smithereens?

Audiences will see ice skating in its finest form as an international cast displays jumps, spins, solos, duets, comedy and precision.

Tickets are on sale at the auditorium box office and all Ticketmasters locations.

West Tech honors Latin American Students

West Technical Education Center hosted a multicultural luncheon on Friday, March 20. Guest speaker for the event was Klaus Sengelmann. Mr. Sengelmann is a graduate of Phillips Academy, with a Bachelors of Agriculture from the University of Oklahoma and a Masters in Business Administration from the Harvard Business School.

Mr. Sengelmann is Vice-President and General Manager of Sem-Chi Rice Products, Inc.

Mr. Sengelmann, born in

Nicaragua, told the students, "When I had to leave my country because of its political deterioration, the only thing I was able to take with me was my education. Be motivated and work hard, it will always pay off. You are lucky to have a place such as West Tech at which to study."

Mr. Sengelmann also discussed agriculture in the Glades. "The growing and processing of rice have been increasing steadily in the last decade," said Mr. Sengelmann. "Rice is a healthy food and

ideal for rotating with sugar cane in the field."

Several students also asked Mr. Sengelmann about the effect of the Everglades cleanup plan on the livelihood of the area.

In closing, Mr. Sengelmann said, "Thank you for listening to me and remember that your education is very important and will be for your entire life."

The luncheon after the talk was held to honor the Hispanic students who attend West Tech, where the student body is representative of many diverse world cultures.

Local Hospice group meets and plans next fundraiser

The first meeting of the Hospice of Palm Beach County, Golden Glades Guild was held on March 17 at the First Baptist Church of Belle Glade.

There was a discussion about what Hospice and its philosophy is and several people in attendance had some of the misconceptions straightened out. One of the purposes of these meetings is to clear up any information someone might have that is not completely correct. Education of the public is something we as a guild will try to spread throughout our communities.

Another function of the local guild will be to raise funds for our own area and its needs. Our next fund raiser has been set for May 30th at the Belle Glade Marina. It will feature fried fish dinners complete with all the trimmings.

Our next guild meeting will be held in May, so be watching the paper for the announcement of the place and time.

We do thank those who came out and made our first meeting a success. It is never too late to come and be a part of this wonderful organization. Hope to see you in May.

The local Hospice Guild will have a booth at the Black Gold Jubilee this weekend. Please stop by and say hello.

Wanda Storey

Storey defies odds and gets diploma with an oral examination for G.E.D.

By Bill Phillips
Staff reporter

Wanda Storey, age 24, is not your average high school graduate. When she was twenty years old, she was involved in a tragic automobile accident that rendered her quadriplegic.

The single mother, of a now five year old daughter, has high ambitions. She would like to become independent and take care of herself and her daughter.

daughter, Michelle Nicole. She took the first step last week by completing her G.E.D. diploma and anticipates attending her formal graduation at Glades Central on June 5 or 6 of this year with the class of 1992.

The G.E.D. test is rough enough but imagine completing the mathematics portion in your head. She does not have any feeling in her body from her neck down.

"It was hard work," she said, "but now I am planning on college courses. Hopefully, I can learn the computer and have a self supporting future."

Getting the diploma took a lot of people lending a helping hand. Mr. Clarence Fuller, Adult Education and Lifelong Learning Director at Glades Central Community High School was one of the special people that helped Ms. Storey according to Donna Tsismanakis, Resident Services Coordinator at Glades Health Care Inc., in Pahokee.

"He made a special trip to Tallahassee and even had to contact Washington D.C. to get special permission for Wanda to take her test because of special time limitations placed on the G.E.D.," she said.

Ms. Storey has a tracheotomy and requires specialized care. She lives at Glades Health Care Center. Her daughter is living with her family in Okeechobee.

Her family from Okeechobee comes and picks her up for special occasions and holidays. They have taken courses on how to care for her.

The nursing staff and residents of Glades Health Care, Inc. honored Ms. Storey with a special graduation march, "Pomp and Circumstance," and a special party to honor her for her achievement.

"We are really proud of Wanda," said Mrs. Tsismanakis. "She had really come a long way and we are really pleased that the nursing home helped in this endeavor."

\$4,000 still needed to send Glades Central Band to state

By Cartheda Konchella
Special to The SUN

The Glades Central Community High School gymnasium was filled with melody Saturday, March 28, as members of Glades Central's High School Band played through an 8-hour music marathon to raise funds for a trip to participate in state competition early next month.

When the dust cleared, the band was \$880 closer to their trip. However, \$5,000 is needed.

Designated the "Honor Band" for this weekend's Black Gold Jubilee, the Glades Central Jazz Band will perform at 6 p.m., Saturday during the festival at the Belle Glade Marina.

The public is invited to hear our award-winning band, and asked to contribute to their efforts to attend the State Band Festival on May 4 in Lakeland.

For additional information, please contact Willie Pyffrom, Band Director at 996-6989.

"Girl of the Year" is named by Xi Zeta Mu sorority

On Saturday, March 21st, eleven members of Xi Zeta Mu sorority met with their husbands and guests at the Clewiston Inn's Sugar and Spice Room for a special celebration.

Everyone was happy and in total agreement when Sponsor Jane Evans announced that Laura Mae Enfinger would be "Girl of the Year" for 1992.

"Laura Mae is very deserving because she always gives tirelessly of her time and energy. She is supportive and caring and a wonderful

example for anyone to follow," said Mrs. Evans.

A beautiful engraved silver platter and bowl was presented, along with a fishing pole and a fish bowl complete with water and fish.

"We have it on good authority that Laura Mae loves to fish," continued Mrs. Evans. Judy McMillan, the "Girl of the Year" for 1991, made a special presentation of the infamous Xi Zeta Mu chicken which gets passed on to each girl who reigns at the "Girl of the Year."

Heart Assoc. appoints committee

The American Heart Association, Glades Division has appointed a committee for the Commerce, Business and Industry Campaign.

The committee will be chaired by Kendra Perkins with Frank Teets, Vice President of South Bay Growers, Inc. directing the South Bay campaign and Carlene Walker, Pahokee City Commissioner, directing the Pahokee campaign. Last year's campaign raised \$1,880 and this year's goal is \$2,500, according to Ms. Perkins.

Perkins, Walker and Rhonda Hodge, representing Frank Teets, met Monday, March 30 at the Belle Glade Country Club to begin the campaign kickoff.

Contributions from area businesses will help the American Heart Association's mission of reducing early death and disability from heart disease and stroke.

The American Heart Association's first Residential Campaign to be conducted in the Glades community was begun in February. The "Dear Neighbor" campaign is a fund raising drive with residential volunteers appealing to friends and neighbors to support the American Heart Association with their contributions. Bernice Sizemore of Belle Glade has agreed to help by sending information to over 200 households.

The American Heart Association appointed a committee to head their Commerce, Business and Industry campaign in the Glades. From left is Carlene Walker, who will coordinate the Pahokee effort, Kendra Perkins, Chairman and coordinator for the Belle Glade campaign, and Rhonda Hodge, standing in for Frank Teets who will head up the South Bay campaign.

Police say they've had a busy month

The Director of Public Safety, Michael R. Miller, reported that the Belle Glade Police Department has received 270 reports of crime against property offenses from the period of February 23, 1992 to March 30, 1992, which consisted of the following:

- 52 Petit Theft
- 5 Strong Arm Robberies
- 21 Business Burglaries
- 23 Residential Burglaries
- 39 Criminal Mischief
- 35 Retail Theft
- 15 Grand Theft
- 15 Auto Theft
- 56 Auto Burglary
- 5 Armed Burglary
- 2 Theft of Public Utilities
- 2 Damage to City Property.

The Belle Glade Police Department has arrested 41

adult offenders and 25 juvenile offenders on property related crimes over the past 36 days.

Detective Sergeant Darren Kirch of the Criminal Investigations Division of the Belle Glade Police Department has been assigned to review and contact the victims of reported property crimes for follow up investigations.

(POI) requests have already been honored except one, which was received on Monday, Mr. Hayden said.

"you must realize the magnitude of this request," he said. "More than one million documents have been requested and released. This takes some time because of the huge volume of paper work required."

Andy Rackley, president of the Florida Sugar Cane League, disagrees with Mr. Hayden's statement that all the requested documents have been released and said the actual number of requested documents falls far below the one million mark. Mr. Rackley provided the Clewiston News with a list of 62 documents the federal government has refused to make public.

More than half of the unreleased documents deal with drafts of the eventual settlement agreement between the federal government and SFWM. The remainder of documents contain information on the research done to arrive at the eventual settlement.

"Where is the scientific basis for this plan?" asked Clewiston resident Barbara Forrest. "You have prevented scientists from going into the park to do the research we need to form a sound scientific basis for this restoration effort."

Mr. Hayden said the issue of access to Everglades National Park and the Loxahatchee Wildlife Refuge for the purpose of conducting scientific research is "an open book." He said the park service welcomes valid scientific research in the park, and outlined three steps that must be completed before a

scientist may be granted access.

First, said Mr. Hayden, the person must be a bonafide scientist. Second, the research must be done in a non-intrusive manner so that the natural environment is not harmed. Third, if the research occurs on public land, it must be shared with the park service. Mr. Hayden said the federal government is willing to negotiate with farming interests for a scientist to come into the park.

Two 1989 requests from Dr. Curtis Richardson, a professor at the Duke University Wetlands Center, to perform non-intrusive research and share the results with park officials at Everglades National Park and the Loxahatchee Wildlife Refuge were denied, however.

The requests were repeated in 1991 on behalf of the Florida Sugar Cane League, and again were denied. Quoting from one of the letters of denial:

"This responds to your request of March 21 (1991) to conduct scientific research in Everglades National Park... This appears to be the same request we received from Dr. Curtis Richardson in 1989. The request was denied at that time on advise on trial counsel. It was determined that the interest of the United States could best be served by limiting outside research concerning Everglades water quality during the pendency of United States v. South Florida Water Management District et al... Since the litigation is ongoing, we see no need to reverse our earlier decision in this matter."

DENTAL HEALTH QUESTIONS

Why does the Dentist need X-Rays of my mouth?

Studies show that without x-rays dentists would miss more than 50% of the decay between teeth. X-rays also aid in the diagnosis and treating of other dental problems, such as abscesses, cysts, tumors and impacted teeth.

Why do I need Root Canal Treatment? It's the only way to save a tooth when the pulp, which contains the nerves and blood supply is diseased or damaged. A common reason for root canal treatment is an infected or abscessed tooth,

which may result from a deep cavity, gum disease, a fractured tooth or a sharp blow to the tooth. Symptoms may include sensitivity to hot and cold, but don't be reassured if the pain disappears - that could mean the nerve has died.

What is a Crown? Why isn't a filling enough? A crown is a cover or cap for a damaged tooth that restores it to its normal shape and size. It's used when a tooth has extensive decay or has been fractured.

Why do Wisdom Teeth usually need to be removed? Wisdom teeth, also called third molars are the last teeth to come in, usually in the late

teens or early twenties. Sometimes there is not enough room in the mouth for all four to come in, this can damage other teeth and cause painful inflammation and infection. They can become decayed because it's difficult to clean back there and cause problems for denture wearers later in life.

Early removal avoids costly and painful problems that might occur later if a tooth becomes infected. Removal is simplest between the ages of about 17 and 20 when the roots are at least partially formed.

HEADACHES

Also called sick headaches, a typical migraine attack, begins with a dull throbbing ache in one area of the head and progresses to a piercing pain. These tortuous attacks may be preceded by a change in the field of vision - a flickering before the eyes, flashes of light or a partial blocking of the vision. They are sometimes accompanied by nausea or vomiting. They are seldom relieved by aspirin. Their duration is from 2 to 48 hours.

solution could be found to keep all the land in production, but that is not realistic."

Florida Sugar Cane League President Andy Rackley said the Ladies made him proud on Thursday.

"The water management people kept trying to take the secretary away, but those ladies just surrounded him and wouldn't let him go until their questions were answered," Mr. Rackley said.

The Ladies' meeting held on Friday at the Drawbridge Cafe in Belle Glade was attended by more than 90 women from Clewiston and Belle Glade. Those women watched as Marjorie Stoneman Douglas reported that pollution is

seminar entitled Forum on the Everglades held last year. Many of the women attending the meeting said they had been unaware of the pending threat to farming in the Everglades. Several handouts outlined

actions that can be taken by the Ladies, including writing letters to the Governor, Lt. Governor and members of the SFWMD Board of Governors before their meeting on April 9.

The Florida Sugar Cane League is expected to outline an alternate plan to the Everglades SWIM Plan recently adopted by SFWMD.

The Ladies of the Everglades have scheduled a second meeting for Thursday, April 2 at the John B. Boy Auditorium in Clewiston. This meeting will also include lunch.

All women in the Glades area are encouraged to attend the meeting.

Welcomes Black Gold Jubilee!

Flavor of the Glades

Originated and named in 1978, Black Gold Jubilee was created to celebrate Belle Glade's local culture, talent, and resources.

The annual event is scheduled as close as possible to Belle Glade's April 9, 1928 incorporation date. Although many changes have been made in the Jubilee since Mayor Thomas Altman spearheaded its inception, it remains one of the best family-oriented and entertaining celebrations in the Glades.

Join us in the celebration which is already in full swing with the fishing and casting contest March 28 and the tennis tournament winding up on March 29.

Other events included the Little Mr. and Miss Black Gold Jubilee contest March 26 and the night golf tournament on March 28.

Volleyball starts tomorrow, April 3 at the Belle Glade Marina and the annual Harvest Queen Pageant is tomorrow night at 7:30 p.m. at the

Dolly Hand Cultural Arts Center.

The gospel sing and the blessing of the rich, black muck soil which makes this area so unique is tonight at 7:30 p.m. at the First Baptist Church in Belle Glade.

A favorite of the children in the Glades is the annual Children's Pet Show which beings at 5:30 p.m., Friday, April 3 at Mace Park.

Kids have been known to enter their favorite goat, pig or slithering snake.

The parade will kick off at 10 a.m. Saturday morning on N.W. Avenue L. Bands, twilers, youth groups, local dignitaries and all sorts of units always participate to make it a great start to fun-filled weekend.

Old timers will be pleased to hear that a horseshoe contest has been added back into the Jubilee. This favorite pastime hasn't been offered at the Jubilee for many years.

So...enjoy...enjoy...enjoy!

Her involvement changed as her family matured, but her best quality has carried over regardless of what hat she is currently wearing. Sue Teets is an encourager! It's hard to judge whether her genuine interest in people and her intuitive empathy for all she meets have made her an encourager, or the other way around.

Those who frequent the Chamber have seen Sue in action. She is often the first (and sometimes the

This year's Jubilee booklet was dedicated to Sue Teets who has been on the Jubilee committee for several years. Here is what her fellow committee members had to say about her hard work and dedication.

Wearing many hats comes easy to Sue Teets. Wife, mother, teacher, and coordinator, she is presently Executive Director of the Belle Glade Chamber of Commerce.

If there's a group needing help, call Sue. Someone to work behind the scenes, call Sue. And, if she can't do it herself, she will know what resources to tap, or who else to call. NO is simply not her style.

Macon's loss was certainly Belle Glade's gift when this perky Georgia peach migrated south. With her husband, Frank, Sue settled into the

A firm believer in hometown pride, much of Sue's time is spent promoting the area through numerous committees. Two of her more recent commitments are LEADERSHIP Glades and the Chamber's ongoing image campaign with WPTV - Channel 5.

Treasurer of Black Gold Jubilee, Sue also serves as editor of the Jubilee booklet. Joining their talents, she and Ann Tyler have coordinated and produced the Jubilee logos, T-Shirts, souvenir cups, and booklet covers for the past five years.

In recognition of her talent and commitment, the 1992 Black Gold Jubilee Committee proudly dedicated the Black Gold Jubilee booklet to Sue C. Teets.

Fishing is fun...especially when you can win big prizes. The annual Black Gold Fishing and Casting Contest just gets bigger and better every year.

Large crowd attends Jubilee fishing contest

The turnout was good for the annual fishing and casting contest, March 28 at the Belle Glade Marina. Children from toddler to age 15 participated and trophies were awarded in each division.

Months of preparation went into the planning of the event. Organizers Sam and Polly Williams said they were expecting over 500 children to attend. All contestants received a free tackle pack and had a great time fishing on Lake Okeechobee.

All the children received a free lunch courtesy of Burger King and the Belle Glade Elks Lodge #1716.

A special "Thank You" to Chamber Executive Director Sue C. Teets for providing many of the write-ups used in this special Black Gold Jubilee tab section.

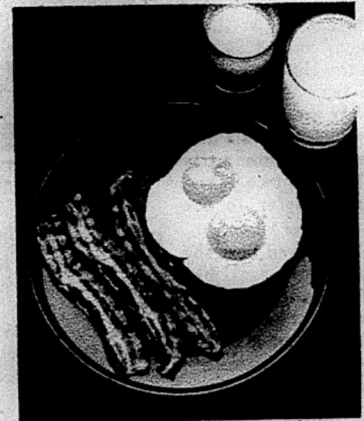

Wishes to thank the 14th Black Gold Jubilee Committee for the Flavor of the Glades!
